### ENVIRONMENTAL POLICY

Porkka Finland Oy develops, manufactures and sells professional cold and freezer cabinets, cold and freezer rooms, counters and clean rooms.

We are closely involved in international co-operation in our branch creating a direction for future development of environmental subjects. We use our knowledge to efficiently develop our products and services. In this way, we can offer our customers products that meet the requirements of international agreements, laws and other regulations.

The environmental system is a tool for us to continuously improve our operations and to take environmental aspects into account efficiently in all our activities. Our goal is to reduce adverse environmental impacts caused by our operations and thus provide added value for our customers.

We ensure that our entire staff is aware of our environmental protection efforts and is committed to working accordingly.

PORKKA FINLAND OY
